Certification Residency Training Programme in Urology Questionnaire

Question
Certification
Regarding the application indicate as applicable. First time application/ Re-Certification
Did anything change in the following area's since the last site visit?
Have you implemented the recommendations following the last site visit?
Provide a short description of what you have done.
Provide a short description of what has kept you from implementing our recommendations.
Upload a list of scientific publications from the last 2 years.
Upload a valid proof of national accreditation RTPU.
Educational programme
Is there a training programme?
Upload a copy of the written training programme in English (pdf).
Is any kind of pre-training required?
What is the duration of the pre-training?
What kind of pre-training?
What is the duration of the training programme?
How is the training programme set up?
Indicate length in months for Urology.
Indicate length in months for General Surgery.
Does the local training programme include rotation between the sub-specialties?
Is there a national curriculum that is being implemented in the training programme?
Are there any training activities (not included in urology training) relevant for community health care; e.g. finance, ethics, leadership?
Provide a short description
Does every resident have a personal written training programme?
Faculty
Number of certified urologists.
Number of full-time urologists involved in teaching.
Number of part-time urologists involved in teaching.
Number of urologists with FEBU-title.
Number of fellows
Do the fellows contribute to train the residents?
How do the fellows contribute in the training?
Maximum number of training positions.
Number of residents currently in training.
Does every resident have a personal tutor?
Is supervision available to resident during clinical work?

Facilities
Number of urology beds.
Number of admissions urology department during previous year (minimum stay of 1 night).
Number of day care procedures during previous year.
Do residents have access to relevant sources e.g. PubMed, Medline, books, etc.?
Do residents have free access to major international urology journals?
Achievement of goals
Do residents annually take part in the EBU In-Service Assessment?
Do the residents stay in the hospital when on call?
Do the residents work the day after having been on call?
Do the residents work the day before being on call?
Does every resident have a regular personal meeting with the mentor?
Frequency personal meetings (Average number in a year).
Frequency assessment (Average number in a year).
How is the assessment carried out?
How many hours do residents spend on a weekly basis at the outpatient clinic?
How many hours do residents spend on a weekly basis at the ward?
How many hours do residents spend on a weekly basis in the operation theatre?
How many hours do residents spend on a weekly basis on research?
How many hours do residents spend on administrative work on a weekly basis?
Is there a system for assessing competences, knowledge, skills and attitude with structured feedback to the resident?
Is there an exit exam at the end of the training?
What is the number of nights that each resident is on call per month?
What is the number of weekends each resident is on call per month?
What is the number of working hours per week (including overtime, excluding on call periods)?
Theoretical training
Are there regular clinical conferences?
Frequency for multidisciplinary tumour board (Monthly basis).
Frequency for radiology (Monthly basis).
Are there regular journal club meetings?
Frequency for journal club meetings (Monthly basis).
Are there regular scientific meetings?
Frequency for regular scientific meetings (Monthly basis).
Do trainees participate in educational courses and seminars?
Provide a short description of the residents' participation in educational courses and seminars.
How many papers are published by residents at (inter)national meetings in the last 2 years?
How many posters were presented by residents at (inter)national meetings in the last 2 years?

Clinical training
Specify the number of visits in the urology outpatient department during the last year.
How many patients in the following sections visit the hospital on an annual basis?
• Andrology and erectile dysfunction.
• Functional urology (male/female LUTS).
• Oncology.
• Paediatric urology.
• Transplantation.
• Urinary stone disease.
Core Procedures
Circumcision
How many are performed annually in the department?
By the end of his training how much of the procedure will the resident be able to perform independently?
Cystoscopy
How many are performed annually in the department?
By the end of his training how much of the procedure will the resident be able to perform independently?
ESWL
How many are performed annually in the department?
By the end of his training how much of the procedure will the resident be able to perform independently?
Inguinal Orchiectomy
How many are performed annually in the department?
By the end of his training how much of the procedure will the resident be able to perform independently?
Nephrectomy
How many are performed annually in the department?
By the end of his training how much of the procedure will the resident be able to perform independently?
Suprapubic Cystostomy
How many are performed annually in the department?
By the end of his training how much of the procedure will the resident be able to perform independently?
Percutaneous Nephrostomy
How many are performed annually in the department?
By the end of his training how much of the procedure will the resident be able to perform independently?

Retrograde Pyelopgraphy, Ureteral Stenting
How many are performed annually in the department?
By the end of the training how much of the procedure will the resident be able to perform independently?
Retrograde Pyelopgraphy, Ureteral Stenting
How many are performed annually in the department?
By the end of the training how much of the procedure will the resident be able to perform independently?
Scrotal Surgery (Hydrocele, Epididymal Cyst)
How many are performed annually in the department?
By the end of the training how much of the procedure will the resident be able to perform independently?
Trus and Prostate biopsy
How many are performed annually in the department?
By the end of the training how much of the procedure will the resident be able to perform independently?
TURBT
How many are performed annually in the department?
By the end of the training how much of the procedure will the resident be able to perform independently?
Endoscopic management for BPH (TURP, Ho LASER, TUMT, GREEN LIGHT etc.)
How many are performed annually in the department?
By the end of the training how much of the procedure will the resident be able to perform independently?
Ureteroscopy/Ureterorenscopy
How many are performed annually in the department?
By the end of the training how much of the procedure will the resident be able to perform independently?
Urodynamic (Excluding flow)
How many are performed annually in the department?
By the end of the training how much of the procedure will the resident be able to perform independently?

Other Procedures
Partial Nephrectomy
How many are performed annually in the department?
How many are performed open/lap/robot?
Do residents participate?
Radical Prostatectomy
How many are performed annually in the department?
Do residents participate?
Radical Cystectomy
How many are performed annually in the department?
Do residents participate?
Urethral Surgery
How many are performed annually in the department?
Do residents participate?
Percutaneous Nephro-Lithotripsy
How many are performed annually in the department?
Do residents participate?
Flexible Uretero-Lithotripsy
How many are performed annually in the department?
Do residents participate?
Are other specialised surgeries performed in your centre?
Which procedures are performed most frequently?
